Frontend Developer

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY

Btech(2023-Current)

SRI CHAITANYA JUNIOR COLLEGE

Intermediate(2021-2022)

PEARLS' HIGH SCHOOL

Primary and Secondary Schooling(2020)

PROJECTS

Income Classification using ML

This project uses machine learning models—Logistic Regression, Decision Trees, Random Forest, SVM, and Neural Networks—to predict income levels based on demographic and socio-economic data. It compares model performance using datasets like the UCI Adult Income Dataset to support applications in social research and economic policy.

Document Management System

The Document Management System is a secure full-stack web app built with HTML, CSS, JavaScript, Node.js, and MySQL. It features user authentication, version control, smart search, role-based access, and encrypted file storage, showcasing practical document handling and collaboration capabilities.

TECHNICAL SKILLS

- HTML
- CSS
- DSA(Python,Java)

EXPERIENCE

CO-LEAD, OUTREACH DEPARTMENT

Next Gen Cloud Club, VIT-AP
